

BAKUP-USA

Installation Guide

BMW K1200LT PASSENGER BACKREST/LUGGAGE RACK

- Put your bike on the center stand.
- Remove the Passenger Seat.
- Remove the inner liner of the top case.
- Because of the different models, refer to your owner's manual or BMW Dealer on which wires to unplug going to the top case.
- Remove the (4) screws on the bottom of the top case. Take the top case off.
- Place the (4) spacers provided over the (4) existing boltholes for the top case.
- Place your backrest in position so that the holes line up with the spacers and insert (4) screws provided.
- Adjust forward/backward, up/down to your liking. *We've got your back!*
