

BAKUP-USA

Installation Guide

BMW R1100/1150GS Driver's Backrest

- **Place your bike on the center stand.**
- **Remove the passenger seat.**
- **Remove 2 screws located directly behind the driver's seat.**
- **Insert the 2 spacers (supplied) in the screw holes. Align your backrest in place over the holes. Bolt down with the screws supplied and tighten.**
- **Reinstall the passenger seat and adjust forward/backward, up/down to your liking. *We've got your back!***
