

BAKUP-USA

Installation Guide

BMW R1100/1150GS Passenger's Backrest

- 1. Remove the two screws that hold the rear grab handle (be careful, these screws also hold the tail light assembly).**
- 2. Install the two spacers that are supplied with your backrest in the holes in the grab handle.**
- 3. Place your backrest so that the holes align. Install screws supplied and adjust forward/back - up/down to your liking.**
