

BAKUP-USA

Installation Guide

BMW R1100/1150RT Passenger Backrest

- **Remove the six button caps and bolts from the top of the luggage rack.**
- **Insert the six spacers in the holes in the top of the luggage rack.**
- **Place your backrest on top of the luggage rack aligning the holes, then insert screws provided (longer screws are for the rear). Tighten screws to specifications.**
- **Adjust forward/backward up/down to your liking. *We've got your back!***
