

BAKUP-USA

Installation Guide

BMW R1200RT Driver's Backrest

- 1. Place your bike on the center stand.**
- 2. Remove the driver and passenger seat.**
- 3. Remove the two (2) height adjustment blocks.**
- 4. Place your backrest so that the holes for the height adjustment block align with the mounting holes for your new backrest.**
- 5. Reinstall the height adjustment blocks using the hardware provided.**
- 6. Reinstall the driver and passenger seats.**
Note: you may have to push forward on the backrest in order to get the passenger seat in place.
